

Record a Raptor

TWIC Lothians and Borders wildlife survey

Have you seen a **Red Kite**, a **Kestrel** or a **Buzzard** in the Lothians and Borders?

If so, please let us know!

Records can be submitted **online** at www.wildlifeinformation.co.uk. Alternatively, you can tell us about your sighting by sending an e-mail to recordaraptor@wildlifeinformation.co.uk.

In order to protect our wildlife we need to know where it is – help protect your local raptors by keeping an eye out for them and participating in the ‘Record a Raptor’ survey!

Red Kite in flight

When – a specific date, a year or even a time interval (e.g. ‘April 2013 – September 2013’).

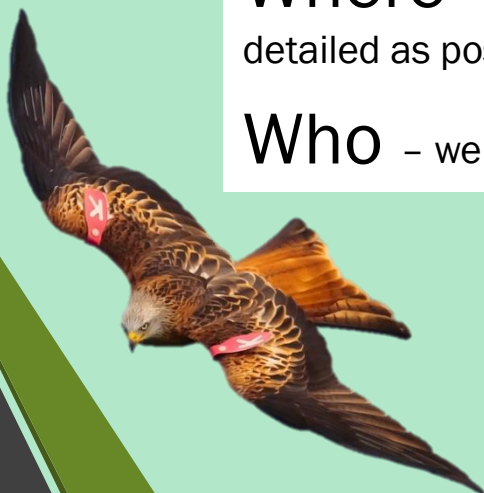

What – species. If you are able to take a photograph of the bird, send us an e-mail on recordaraptor@wildlifeinformation.co.uk

Where – postcode, address or grid-reference. Please be as detailed as possible on ‘where’ you saw the bird.

Who – we need to know who took the record.

Kestrel in flight

Buzzard in flight
